Dear Josh Cox,

At Microsoft, we believe technology can do amazing things. That's why we partner with thousands of organizations like yours around the world to help each one achieve its mission. Through our Corporate Citizenship efforts, we provide technology tools, training, and resources that can help create opportunities and transform communities. Congratulations on being part of our global community!

Activating Your Agreement

Use of the licenses in this donation is subject to an agreement between your organization and Microsoft. Within a few days, you will receive two additional emails with information about this agreement. You will receive an email from the Microsoft Volume Licensing Service Center (VLSC) indicating that Microsoft has accepted the agreement. You will then receive an email from TechSoup with details about how to accept and activate your agreement and obtain your license keys.

Fair Market Value

Microsoft is pleased to support Webhosting-coop Foundation with a Microsoft software donation valued at US $588.00*. This letter includes a list of the products you requested and the estimated market value of your donation. Please print copies of this letter for your license and tax records.

Support

In addition to this donation, we also offer other resources, tips, and tools to help you work more efficiently and effectively to achieve your mission. You can find these resources at http://www.microsoft.com/ngo. We have also created specific guidance on what to expect from a partnership with Microsoft at http://www.microsoft.com/ nonprofittoolkit, including resources to help you communicate the benefits of our partnership and connect with other organizations.

For tips on how to make the most of your Microsoft donation, see TechSoup's Using Your Microsoft Donation page.
